Algorithm 1: Quick Sort

```
1 def quick_sort(t, ℓ, r):
2     if r − ℓ > 1 then
3         p ← partition(t, ℓ, r)
4         quick_sort(t, ℓ, p)
5         quick_sort(t, p, r)
6
```
